PSC 2
Section A
Original Sheet 4

ACCESSORIES

Devices which are mechanically attached to, or used with, the facilities furnished by the Company and which are independent of, and not electrically, acoustically or inductively connected to the communications path of the telecommunications systems.

ADDITIONAL LISTING

Any listing of a name or other authorized information in connection with a customer's telephone number in addition to that to which he is entitled in connection with his regular service.

ANSWERING SERVICE LINES

Lines of patrons of a telephone answering service which terminate in the telephone answering facilities on the premises of the answering service so as to permit the answering service attendant to answer incoming calls on such lines.

APPLICANT

A person, firm, partnership, corporation, cooperative organization, governmental agency, etc., requesting service from the Company.

AUTHORIZED PROTECTIVE CONNECTING MODULE

The term authorized protective connecting module denotes a protective unit designed and manufactured under the control of telephone company quality assurance procedures, which unit is to be incorporated in a conforming device.

AUTHORIZED USER

A person, firm or corporation (other than the customer) on whose premise a telephone, PBX, or private line service or channel is located and who may communicate over such channels in accordance with the terms of this Tariff.

AUXILIARY INTERCOMMUNICATIONS SYSTEMS

Auxiliary Intercommunications Systems provide internal voice communications within a customer's premise by means of one-way or two-way intercom systems. They are not interconnected to outside toll telephone facilities even though they may be connected internally to a telephone system.

AUXILIARY LINE

An additional individual line main station used for one-way (limited to the subscriber) service.

BASE RATE

A schedule rate for any form of exchange service or equipment which does not include mileage charges.

BASE RATE AREA

A specific area within an exchange service area as set forth in the telephone utilities tariffs, maps or descriptions. Local Exchange Service within this area is furnished at uniform rates without extra mileage charges.

BASIC TELEPHONE SERVICE

For the purpose of establishing rate and charges, basic telephone service is 1, 2, or 4 party business or residential local line service. Instrumentation supplied for basic telephone service are those instruments offered where no additional recurring charges apply.

BASIC TERMINATION CHARGE

See "Termination Charge"

BUILDING (Same)

The term "same building" is to be interpreted as a structure under one roof, or two or more structures under separate roofs but connected by enclosed passageways in which the wires or cables of the company can be safely run provided the plant facility requirements are not appreciably greater than would be required normally if all structures were under one roof. In those cases where there are several structures under separate roofs but connected by enclosed passageways and the plant facility requirements for furnishing service are appreciably greater, than would be required normally if all the structures were under one roof, the term "same building" applies individually to each of the separate structures. Pipes and conduits are not considered enclosed passageways.

BUSINESS SERVICE

Telecommunications service provided a customer where the use is primarily or substantially of a business, professional, institutional or otherwise occupational nature.

CALL

An attempted or completed communication.

CANCELLATION CHARGE

A charge applicable under certain conditions when an application for service and/or facilities is cancelled in whole or in part prior to the completion of the work involved.

CENTRAL OFFICE

A switching unit in a telephone system which provides service to the general public, having the necessary equipment and operating arrangement for terminating and interconnecting customer lines and trunks or trunks only. There may be more than one central office in a building or exchange.

GENERAL REGULATIONS

B.1 Application of Regulations

The regulations set forth herein apply to intrastate services and facilities furnished within the State of Kentucky by Salem Telephone Company, hereinafter referred to as the "Company", subject to the jurisdiction of the Kentucky Public Service Commission. When service and facilities are provided in part by the Company and in part by other companies, the regulations of the Company apply to that portion of the service or facilities furnished by it.

B.2 Limitations and Use of Service

B.2.1 Use of Subscriber's Service

1. Telephone equipment and facilities are furnished for the use of the subscriber's employees, agents or representatives of the subscriber or members of the subscriber's domestic establishment except in connection with semi-public telephone service and except as the use of the service may be extended, in addition to other service which may be separately ordered, to joint users, patrons of hospitals or of hotels, members of clubs, students living in quarters furnished by schools, colleges or universities, to persons temporarily subleasing a subscriber's residential premises, or to tenants living in retirement complexes.

2. Except as otherwise provided in this tariff, service furnished by the Company is intended only for communications in which the subscriber has a direct interest and shall be received by him from any other person, firm, or corporations for use, or in the collection, transmission or delivery of any communication for others. This prohibition shall not apply to a subscriber who is engaged as a communications common carrier for message telegraph communications.

3. In view of the fact that the subscriber has exclusive control of his communications over the facilities furnished him by the Company, and of the other uses for which facilities may be furnished him by the Company, and because of unavoidable errors incident to the services and to the use of such facilities of the Company, the services and facilities furnished by the company are subject to the terms, conditions, and limitations herein specified.

B.2.2 Establishment of Identity

1. The calling party shall establish his identity in the course of any communications as often as may be necessary.

2. The calling party shall be solely responsible for establishing the identity of the person with whom connection is made at the called location.

B.2.3 Use of Party Line Service

Applications for Party line service are accepted by the Company with the understanding that each subscriber will so use the service as not to interfere with an equitable proportionate use of the service by the other subscribers on the same line. When the duration or number of messages sent or received by a party line subscriber is so great as to prevent an equitable proportionate use of the line by other subscribers on the line, the Company shall have the right to require the subscriber to contract for a higher grade of service, or to discontinue the service of the subscriber in question.

B.2.4 Minimum Contract Period

1. Except as specified elsewhere in this Tariff, the minimum contract period is three months from the date service or additions to service are established and the minimum charge is the authorized rate for one month. For purposes of rate administration each month is considered to have 30 days.

2. The Company may require a contract period longer than three months at the same location in connection with special types or arrangements of equipment or for unusual construction necessary to meet specific demands for service.

B.2.5 Cancellation of Service

1. The Company may without notice either suspend service or terminate the subscriber's contract without suspension of service or, following a suspension of service, disconnect the service and remove any of its equipment from the subscriber's premises upon:

- A. Abandonment of the Service
- B. Failure of a subscriber to make suitable deposit as required by this Tariff.
- C. Impersonation of another with fraudulent intent.
- D. Listening in on party line conversations.
- E. Use of service in such a way as to impair or interfere with the service of other subscribers such improper use includes, but is not limited to, the use of telephone service by a subscriber or with his

F. Abuse or fraudulent use of service; such abuse or fraudulent use includes;

a. The use of service or facilities of the Company to transmit a message or to locate a person or otherwise to give or obtain information without payment of the charge applicable for the service;

b. The obtaining, or attempting to obtain, or assisting another to obtain long distance messages telephone service, by rearranging, tampering with, or making connection with any facilities of the Company, or by any trick, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or in part, of the regular charge for such service;

c. The use of service or facilities of the Company for a call or calls, anonymous or otherwise, if in a manner reasonably expected to frighten or torment another;

d. The use of profane or obscene language;

e. The use of the service in such a manner as to interfere unreasonably with the use of the service by one or more other customers.

G. Any other violation of the Company's regulations.

2. The Company reserves the right to cancel any contract for service with and to discontinue service to any person who uses or permits the use of obscene, profane or grossly abusive language over or by means of the Company's facilities, and who, after reasonable notice fails, neglects or refuse to cease and refrain from such practice or to prevent the same, and to remove its property from the premises of such person.

3. The Company may terminate the service and remove its equipment for non-payment of any sum due for exchange, long distance, or other services when the following requirements are met:

A. Written notice shall be sent to the customer no sooner than 10 days after the original bill is sent out.

B. The subscriber shall have a minimum of ten days to comply.

C. The disconnection of service shall not be made before the twenty-one days after the original bill is sent out.

Original Sheet 12

In the case of directory listings and joint-user service where the listing has appeared in the directory, the charges due to the end of the directory period, except that in the following cases charges will be continued only to the date of termination of the extra listing or joint-user service, subject, however, to a minimum charge for one month.

- (1) The contract for the main service is terminated.
- (2) The listed party or joint-user becomes a subscriber to some class of exchange service.
- (3) The listed party or joint-user move to a new location.
- (4) The listed party or joint-user dies.

For PBX service or special equipment, the charges may be based on the individual circumstances in each case as agreed upon at the time of installation.

Contracts for periods of longer than three month covering services whose installation required line extension may be terminated upon payment of all charges that would accrue to the end of the contract period, or the contract will be transferred to a new applicant who is to occupy the same premises and will subscribe to the service effective on the day following termination by the original subscriber.

B.3.10 Suspension of Residence Service

1. General

A. Upon request, a subscriber to residence service may arrange for the temporary suspension of such service unless otherwise specified in other sections of this Tariff. Suspension of service is available on the subscriber's complete service or on such portion thereof as can be suspended.

B. When the period of suspension is less than one month, the regular charges for the full month of service shall apply.

C. In connection with complete suspension of service, local or long distance service is not furnished during the period of suspension. At the request of the subscriber, inward calls to a party at which service is suspended may be referred to the call number of another party in the same or a distant exchange.

D. The charge for the total suspension period may be collected in advance.

E. There is no reduction in the charge for foreign central office line mileage and foreign exchange line mileage during the period of suspension.

F. In connection with service at a concession rate, the charge for service during the period of suspension is 50 percent of the rate regularly charged for service without concession, except in the case of service at a concession rate of 50 percent or less.

concession is 50 percent or more, then the charge during the period of suspension is the rate regularly charged for the concession service.

2. Application of Charges

A. Network Access Service

The charge for Network Access Service during the period of suspension is 50 percent of the rate regularly charged, except as specified in B.3.10.1 preceding.

B.3.11 Party Line Service

When party line service is furnished to a subscriber, the Company, may in consideration of the rate at which service is furnished, establish and furnish service to one other subscriber in the case of two-party line service, and to three other subscribers in the case of four-party line service. The Company reserves the right to cancel and party line service, upon thirty days notice, whenever in the judgment of the Company, the use of the subscriber holding such contract is such, from large use or other causes, as to interfere with the reasonable use of others connected with the same line. (See B.2.3)

B.3.12 Equipment Facilities - Provision and Ownership

1. All equipment necessary for the provision of a given service will be furnished and owned by the Company except as provided elsewhere in this Tariff. This subscriber may be required to provide suitable housing or other protective measure where equipment is to be installed in location exposed to weather or other hazards. Commercial power will be furnished by the subscriber on his premises in suitable outlets when required.

2. Except as provided by the FCC, no equipment, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the company; whether physically, by induction, acoustically or otherwise; except as provided in this Tariff or as otherwise authorized in writing by the Company or authorized by FCC regulation. In case any such authorized attachment or connection is made, the Company shall have the right to remove or disconnect the same or to terminate the service. Subscribers connecting customer owned terminal equipment, must notify the company and supply FCC administration number.

3. The provisions of the preceding shall not be construed or applied to bar a subscriber from using devices which service his convenience in this use of the facilities of the Company provided any such device so used does not:

A. Endanger the safety of Company employees or the public;

construction and installation charges as are to be borne by the applicant. The amount of the advance payment is credited to the subscriber's account on the first bill rendered.

2. Federal, State or Municipal governmental agencies may not be required to make advance payments.

B.4.2 Establishment of Credit

In accordance with Kentucky Public Service Commission rules, the Company is not obligated to furnish service to any individual or firm that owes for service previously rendered at the same or a different address, until arrangements have been made to liquidate such previous indebtedness to the Company.

B.4.3 Deposits

The Company may require a minimum cash deposit or other guaranty to secure payment of bills. Service may be refused or discontinued for failure to pay the requested deposit. Interest, as prescribed by KRS 278.460, will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

The deposit may be waived upon a customer's showing of satisfactory credit or payment history, and required deposits will be returned after one (1) year if the customer has established a satisfactory payment record for that period. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The Company may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts, and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

B.4.3 Deposits (Cont'd)

In determining whether a deposit will be required or waived, the following criteria will be considered:

- a. Previous payment history with the Company. If the customer has no previous history with the Company, statements from other utilities, banks, etc. may be presented by the customer as evidence of good credit.
- b. Whether the customer has an established income or line of credit.
- c. Length of time the customer has resided or been located in the area.
- d. Whether the customer own property in the area.
- e. Whether the customer has filed bankruptcy proceedings within the last seven years.
- f. Whether another customer with a good payment history is willing to sign as a guarantor for an amount equal to the required deposit.

If a deposit is held longer than 18 months, the deposit will be recalculated at the customer's request based on the customer's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer or 10 percent for a non-residential customer, the Company may collect any underpayment and shall refund any overpayment by check or credit to the customer's bill. No refund will be made if the customer's bill is delinquent at the time of the recalculation.

B.7 Local Service Guarantee Credit

1. The Company will provide a one (1) month local service guarantee credit, which includes all recurring items of local service billed on the customer's current bill when the Company fails to provide specified levels of customers service. This program provides for credits to all residential and single line business customers bills when the Company does not meet the service standards outlined below:

- A. Missed Service Commitment: The customer will be given a one (1) month local service credit if the Company fails to meet a commitment and has not notified the customer 24 hours prior to the agreed time and date. This would apply to such services as installations, changes to custom calling features, provision of optional calling plans and other similar request.

The credit will not apply if the customer could not be reached by telephone and a notice was left in a conspicuous place 24 hours prior to the commitment date and time, the customer did not make the meeting, or "out of service" conditions exist resulting from natural disasters, or circumstances beyond the control and knowledge of the Company.

- B. Service Outages of More Than 8 Hours: A one (1) month local service credit will be applied to the customer's telephone bill if the Company fails to restore basic exchange telephone service within 8 hours after the interruption was reported to or discovered by the Company. (C)

The credit will not apply if premise access is required and neither the customer nor a representative was available at the customer premise and the Company left a notice in a conspicuous place, or the customer had been disconnected for nonpayment of a bill or request for a cash deposit, or "out of service" conditions exist resulting from natural disasters, or circumstances beyond the control and knowledge of the Company.

- C. Repeat Customer Requests: A one (1) month local service credit will be applied to the customer's telephone bill if the Company fails to accommodate the customer's request the first time and this causes the customer to make a second request within thirty (30) days.

Examples of requests which may require multiple business days by a customer include those for billing name and address changes, directory listing changes, requests for credit cards or directories, requests for adjustments, repeat reports of service problems, and moves of cable or drop wires.

B.7 Local Service Guarantee Credit (Cont'd)

(N)

This credit will not apply to requests beyond the control of the Company and when the Company has notified the customer.

D. Credit is NOT applied to:

Claims for credit by customers who have been temporarily disconnected for nonpayment or are requesting reconnection from a temporary disconnect for nonpayment.

Misuse or abuse of the Company owned facilities, or if the problem is found to be associated with the customer's inside wiring or the customer's premises equipment.

Outages of more than 24 hours that are a result of natural disasters or circumstances beyond the control and knowledge of the Company, that occur within 24 hours of the due date where the Company could not obviously notify the customer nor perform the necessary service. Such example is where there has been a storm or other catastrophe that has caused a large number of customers to lose telecommunications services and/or other similar utility type services.

E. Local Service Guarantee Credit includes all recurring items of local service billed on the customer's current bill.

- a. In general, Basic Local Exchange Service is furnished for the exclusive use of the subscriber, and the subscriber's family, guests, employees, agents, or representatives. Resale of Basic Local Exchange Service is permitted only under the specific conditions described in this Tariff. For the purpose of this Tariff section, "sharing" of Basic Local Exchange Service is considered synonymous with "resale" of Basic Local Exchange Service.
- b. When in the judgment of the Company it is deemed necessary of when the projected number of clients is five or more, the customer must apply in writing to resell exchange services provided by the Company and may be required to submit layout maps defining the intended geographic resale area and anticipated development plan in terms on new or existing buildings.

All rates and charges in connection with the resale operation and all repairs and rearrangements being and including the reseller's communication system will be the responsibility of the reseller (customer of record) owner. The reseller will be the single point of contact for all shared tenant services provided in the resale service area. Customers who choose to obtain service directly from the Company may subscribe to any local exchange services available.

C.4.1 Shared Tenant Service Offerings (Continued)
General

Nothing in this Tariff section impairs the Company's franchise or ability to operate in the state. This Tariff is not intended, nor does it, enfranchise or certify the recipients of this service as a telecommunications company.

- c. Resale is permitted where facilities permit and within the confines of specifically identified continuous property areas under the control of a single owner or within a common development with a single name identity, such as multi-tenant office buildings, apartment complexes, condominium complexes, commercial malls, campus complexes, and office and industrial parks. Areas designated for resale may be intersected or transversing thoroughfares would be contiguous in the absence of the thoroughfare. If the designated resale service area is located within the confines of more than one exchange boundary, the serving central office will be determined by the Company. A resale service area may be served by only one central office.
- d. The premises definition as applies to resale of Basic Local Exchange Service is a resale area as defined by layout maps if appropriate.
- e. Private line services may be provided to tenants of resellers under the rules and regulations specified in this tariff and the Private Line Services Tariff. Resellers may obtain private lines for security purposes such as fire, burglary, etc.
- f. Private interconnection of resale service areas within an exchange local calling area and LATA is prohibited. Tie Lines are restricted to the private use of a single resale client and cannot be used to access Local Exchange Service via Sharing and Resale trunks or lines.
- g. All other rules and regulations specified in other sections of this Tariff will apply.

2. Regulations and Application of Rates

- a. Resale of Basic Local Exchange Service is available on a business flat rate basis. Other business services will be provided at the rates specified in other sections of this Tariff.
- b. The client of the reseller is defined as a different business, firm, corporation, company, subsidiary, association, associate or a residence. Listings for Shared Tenant Service Clients may be obtained under the conditions and rates specified in this Tariff. Charges for Listings will not be separately billed.
- c. The service establishment charge shown in D.4.4 applies for all resale service applications processed under this Tariff and is in addition to all other applicable nonrecurring and recurring charges.
- d. Whether the tenants included in a resale service area are residence or business, such tenants may be served by the reseller and the same business rates specified in this and other Tariffs will apply to the reseller.
- e. The minimum period of service is 36 months with a Service Cancellation Fee (SCF) applicable at the date of termination based on the exchange rates in effect. The Service Cancellation Fee is reduced by 1/36 per month and will be an amount equal to the business rates being billed at the time of termination. A nine month notice is required prior to termination of service by the reseller. If a nine month notice is not received, the reseller will be required to continue to provide service until the Company can provide individual access facilities. But in no case will this requirement extend beyond the nine months from the date the notice of termination is received.
- f. When a subscriber located within the designated resale service area wishes to be directly served by the Company on a non-resale basis, or when Salem Telephone Company or customer provided Local Telephone Service is to be provided in the resale service area, the owner/developer will bear the responsibility for and cost of providing premises access for such services. The owner/developer will make either cable pairs or their equivalents available, or provide facility support (conduit or poles) access to the Company at no charge for provision of these services.

EXTENDED LOCAL CALLING SERVICE

Stephan D. Bell
SECRETARY OF THE COMMISSION

C.6.1

GENERAL

Extended Local Calling Service provides one-way, local calling for all customers located in the Salem exchange of the Salem Telephone Company to South Central Bell's Paducah exchange. This is an optional, measured-rate plan.

C.6.2

REGULATIONS

1. Extended Local Calling Service is provided to all classes of business and residence service.
2. Extended Local Calling Service applies only to direct dialed station-to-station calls. Operator assisted calls and calling card calls are not included in this plan.
3. Paystation Service offered in Section G.1 of this tariff is included in this plan. Payphone Service Providers will be charged the rates as specified in Section C.6.4 for calls, terminating to the Paducah exchange, that are made from payphones located in the Salem exchange.
4. For calls that are made to Call Forwarded lines, the customer pays the appropriate usage rate for the duration of the call from the originating number to the called number. The customer of the Call Forwarding service pays any applicable usage rate from the called number to the terminating location of the call.
5. Calls placed from an off-premises extension of an access line will be billed as if the local calls had been placed from the primary service location.
6. Extended Local Calling Service provides residence and business customers with measured-rate calling based on minutes-of-use. The rates specified in C.6.4. following, will be assessed on each minute or fraction thereof rounded to the next higher minute on all originating calls.
7. The chargeable time will be rate sensitive to each specific rate period. When the call spans two rate periods, both rates will apply.
8. Chargeable time is started when the called party answers or when the caller is connected to automatic answering services, (i.e., automatic answer/record equipment, voice mail, or an answering service).

GENERAL SUBSCRIBER SERVICES TARIFF

Salem Telephone Company

PSC 2
Section D
1st. Revised Sheet 2

D.1 GENERAL

D.1.1 The term service charges as specified herein, and in other sections of this tariff is defined as a non-recurring Charge or charges applying to the ordering, installing, moving, changin, rearranging, and furnishing of telephone service.

D.1.2 Charges in this section apply to basic single line business or residential service. Where equipment listed in other sections of this tariff is installed in addition to, or in place of, basic single line instruments, installation charges may apply either in addition to, or in place of charges specified herein.

D.2 PAYMENT OF SERVICE CHARGES

D.2.1 Payment of residential service charges for the initial establishment of service, may be extended equally over a period of two months. However, at the company's option, service charges may be required to be paid at the time of application.

D.2.2 The charges specified herein do not contemplate work being performed by company employees at a time when overtime wages apply due to the request of the customer. If the customer requests overtime labor being performed or interrupts work once begun, a charge in addition to the specified charges will be made based on the additional costs involved.

D.3 DEFINITION OF TERMS

D.3.1 Changes: A change is a substitution of a different type of telephone equipment, or a rearrangement of equipment which does not involve a change in location of the instrument.

D.3.2 Initial Service Periods: That service is installed and remain in use for three calendar months.

D.3.3 Inside Move: A transfer of telephone service or equipment from one location to another within the same building or that portion of the same building occupied by the same subscriber, where there is no interruption of the service other than is incident to the work involved.

D.3.4 Instrumentalities in Place: The telephone instruments and regulated inside wire necessary in the subscriber's premise to furnish the subscriber the service applied for are in place.

D.3 DEFINITION OF TERMS (Continued)

- D.3.5 Late Charge: Payments received beyond the due date as expressed on the customer's bill.
- D.3.6 Maintenance of Service: Labor expended by the company to maintain service of its own equipment and lines, when through no fault of the company customer provided equipment introduces trouble to the network of the company.
- D.3.7 Outside Move: Changes of subscriber equipment or service from one premise to another are treated as an outside move.
- D.3.8 Reconnect Charge: Where service is temporarily disconnected or terminated, either at the customers request or for non-payment, and service is restored at the same location within (12) calendar months.
- D.3.9 Returned Check: A check returned to the company for insufficient funds.
- D.3.10 Service Connection Charge: A non-recurring charge or charges applying to the ordering, installing, moving, changing, rearranging, and furnishing of telephone service.
- D.3.11 Termination: When a customer disconnects service within minimum service period and does not reestablish service within the boundaries of the companies service area.
- D.3.12 Name and Number Change: Where at the customers request the name of the account is changed or a request to change the telephone number can be accomplished without a premise visit.

Section E
Original Sheet 2

E.1 Construction Charges

E.1.1. General

1. Special charges in the form of installation charges, monthly charges, or both, are applied in addition to the usual service connection charges and monthly rates, when, because of the occasional nature of the service or an unusual investment or expense, the revenue does not reasonably compensate the Company, as for example:

- a. The facilities are provided in remote or undeveloped areas outside the base rate area.
- b. The facilities are provided on a temporary basis.
- c. Conditions require the provision of special equipment or unusual methods of plant construction, installation or maintenance.
- d. The customer's location requires the use of costly right-of-way.

2. Title to all construction, provided wholly or partly at a customer's expense, is vested in the Company.

3. The word "cost", when used in this Section, means the in-plant cost consisting of labor, engineering, materials, supervision, and other overhead expenses associated with the construction. Estimated cost may be used; however, where the customer requests, actual cost will be used where practicable.

4. When attachments are made to poles of other companies in lieu of providing new pole line construction for which construction charges would be applicable under the provisions of this Section, the attachment rental charges to the Company may be assessed to the applicant(s) in whole or in part as the particular circumstances may warrant.

5. Except as otherwise provided herein, the regulations in this tariff contemplate that the type of construction required to provide the quantity and class of service involved will be determined by the Company. The applicant may be required to pay the additional costs involved where a different type of construction than that proposed by the Company is desired.

6. The customer is required to pay construction charges made by another company providing facilities connecting with the facilities of the Telephone Company.

7. Construction charges will not apply to the customer's aerial or buried drop which extends from the last pole to the building in which the telephone is located.

8. When an applicant is so located that it is necessary to use private right-of-way to furnish service and the company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the costs incurred in securing, clearing, and retaining such right-of-way.

9. No construction charge is applicable for the provision of construction on public highways or other easements within the base rate area, or beyond the base rate area when such construction is to be used in serving customers with the grade and and class of telephone service normally offered in a given area.

E.1.2 Construction for Rural Service

Under normal conditions, or until the Company has met its requirements under Rural Electrification Administration (REA), and Area Cover Design (ACD), the company will extend its lines to reach applicants within the exchange service area. After the ADC agreement has been met, the Company, without charge, will extend its lines to reach applicants within the exchange service area, subject to the following conditions:

1. Extension of rural line facilities outside the base rate area will be provided without construction charges under the following conditions:

a. Under normal conditions, the Telephone Company will extend its rural lines one-half mile to reach a rural customer within the exchange area.

b. The Telephone Company will provide main line extensions for the provision of rural service to a group of applicants if the number of applicants in the group for permanent service on an annual basis averages one for each half mile or less of plant extension, by shortest public highway measurement.

2. In all other cases, construction or extension of rural lines outside the base rate area will be made on the basis of construction charges as follows:

a. That portion of the construction expense to be borne by the telephone Company shall not be more than seven times the annual revenue of the applicant or group of applicants.

- b. The balance of such construction expense may be assessed by the Company to such applicant or group of applicants.
3. The construction charge assessed on applicant or group of applicants for facilities shall be paid in advance.
4. Payments for line construction are not refundable and no credit will be allowed for future installations on line extensions constructed under these regulations.
5. Line extensions to provide service on a basis other than as covered above, required the payment of construction charges as determined from the conditions.

E.1.3 Private Right-of-Way

When the applicant is so located that it is necessary to secure private right-of-way to furnish service and the Company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the cost incurred in securing, clearing and retaining such right-of-way.

E.1.4 Poles and Wire on Public Highways and Private Property

1. Except as provided under "Temporary Service", no construction charge is made for the provision of new pole lines or wire on public highways within the Base Rate Area.
2. Except as provided under "Temporary Service", where the applicant is located outside the Base Rate Area and the construction outside plant is required to provide facilities to service one or more applicants, the applicant or applicants may be required to bear the cost of such construction.
3. Except as provided under "Temporary Service", neither station installations, including drop wire, protector, inside wiring, telephone sets or any plant within the Base Rate Area shall be considered as construction costs.
4. Poles on private property to be used as a part of the standard distributing plan serving subscribers in general are furnished, maintained and owned by the company, subject to such construction charges as may be applicable.

1. When construction is required for temporary service and there is, in the opinion of the company, no immediate prospect of re-using the plant involved, the customer may be required to pay all or a portion of the cost of such construction, including the cost of removing the plant provided. The salvage value of any plant removed shall be deducted from the total cost to be paid by the subscriber.

2. Under "unusual" conditions station installations, including drop wire, protector, inside wiring, telephone sets, and any common control equipment can be included, all or part, in the cost of construction. Inclusion of items mentioned here in any construction costs would be reviewed on an individual basis. Decision made by the company concerning construction costs under this paragraph would not be precedent setting with respect to other cases.

E.3 Charges for Unusual Installation

E.3.1 Installation of Interior Wire

1. Inside Wiring

A. Where, due to the type of construction of the building occupied by an applicant or the conditions imposed by the applicant, abnormal expense is incurred by the company, the applicant shall be required to pay the difference between the expense incurred by the company and the expense which would normally have been incurred of the installations.

B. The customer will be required to provide suitable access to work space for installation and maintenance purposes, and to remove and replace any ceiling, walls, floor, etc., as may be required. The company shall reserve the right to refuse to install or maintain wiring in a location where safety of workmen or continuity of service might in the opinion of the company be questionable.

2. Limitations

(1) Preinstallation of inside wire is limited to building under construction.

(2) Should the company provide preinstalled inside wire, and its location is not suitable to the customer when construction is completed, the company will complete its installation by the method desired by the customer at normal service charge rate.

(3) If construction of the building has progressed to such a point as to make pre-installation of inside wire impractical, the company is under no obligation to provide such wiring.

(4) It is solely the responsibility of the customer to notify the company of their desire for preinstallation of inside wire.

3. Underground Service Entrances

When underground service connections are desired by the customer as initial installation in places where aerial drop wires would ordinarily be used to reach the customer's premises, or when aerial facilities are used to provide service or channels to a customer and subsequently the customer desires that such facilities be placed underground, the following regulations apply:

A. Underground service entrances may be provided at the customer request as special construction in connection with either existing or new services in lieu of the usual aerial drop wire.

B. Buried service entrance facilities will be furnished without a construction charge where buried service wire or buried cable would normally be provided by the company for service entrance; unless agreements between the company and a contractor or customer have been made prior to land development.

C. Where cable is laid in conduit, the underground conduit shall be constructed and maintained by or at the expense of the customer and in addition, the customer shall pay the cost of the underground cable including the cost of installing less the estimated cost to the company of installing such aerial facilities as would be (or are) required to furnish the same service. The underground conduit shall be constructed in accordance with plans and specifications furnished by the Company.

D. The duct or ducts required in the underground conduit by the Company to furnish service shall be reserved for its exclusive use.

E. Where armored cable is laid in a trench, the trench shall be constructed and back-filled by or at the expense of the customer. In addition, the customer shall pay the cost of the cable, including the cost of installation, less the estimated cost of installing such aerial drop as would be required to furnish the same service.

F. Where facilities are changed from aerial to underground, in addition to the above, the customer is charged the cost of dismantling and removing the aerial facilities.

E.4 Special services and facilities, not ordinarily used in the furnishing of service and not otherwise mentioned in, or provided for or contemplated by the tariff of the Company, may be furnished or leased pursuant to special contract for such special service or facility for such period as may be agreed upon, provided such special service of facility does not interfere with the telephone service furnished by the Company.

In the event any such service or facility or the use made thereof interferes with, or the facilities used in furnishing such special service or facility are needed for the furnishing of telephone service by the Company, it may terminate such contract and cease to furnish such special service and facility after thirty days written notice to the customer and provided further that the Public Service Commission may terminate such contract whenever, in its opinion, public interest required such termination.

E.5 Moves or Changes of Existing Construction

When the Company shall move or change existing construction or equipment for which no specific charge is quoted in this tariff, the person at whose request the move or change is made may be required to bear the cost of such move or change.

E.6 Construction in Residential Development

E.6.1 Terms

1. Single family development-is five or more adjoining lots in a recorded plan for the construction of single family residences including mobile homes intended for year round occupancy.

2. Duplex development-is three or more lots in a recorded plan for the construction of dual family residence intended for year round occupancy.

3. Multi-family development-is one or more lots in a recorded plan with three or more units planned for each lot, and intended for year round occupancy. In this category would fall apartment complexes, apartment buildings and condominiums.

4. Speculative development-where a tract of land is being developed, where distribution facilities of the Company have to be extended in conjunction with the development of the tract prior to its completion either at the convenience of the developer or the Company, and where dwellings are being constructed without a sales contract or signed

lease. The intent of the term speculative is defined as a situation where the Company is requested to make facility investments with no firm guarantee of a timely return on that investment.

5. Non-speculative development—where a tract of land is being developed where facilities of the Company exist or where the development of the tract permits distribution extension as the customer requires service, and necessary cable facilities can be provided at the Company's convenience. The term non-speculative is intended to mean that investment to plant can be made with firm guarantees of a timely return on investments.

E.6.2 Condition

E.6.2.1 Where requests are made of the Company by the developer of a residential development, the Company will require:

E.6.2.2 1. At his own expense, provide the Company with a detailed subdivision plan, showing detailed surveys of each lot in the plan, street location, and a key map showing all other specific locations.

2. At his own expense, provide the Company with easement satisfactory to the Company for occupancy and maintenance of distribution and related facilities, except service lines in public places which the Company has the right to occupy.

E.6.2.3 At his own expense, the developer will clear easements for the aforementioned facilities clear of tree stumps and other obstructions.

E.6.2.4 Should the developer make changes in the plot plan after the Company has completed engineering or begun construction, which creates for the Company additional expense, the developer shall bear the cost of these additional expenses.

E.6.2.5 Before the construction of Company facilities, the developer is responsible for identifying all underground facilities of others. Should in the course of construction of it's facilities, the Company damages the facilities of others that were not identified by the developer, the developer will bear all expense in the repair of said facilities.

D.6.2.6 During the following completion of construction of Company facilities, and prior to completion of the development, the developer shall bear the cost of damage to the Company's facilities caused by the developer and others. This includes all distribution and service lines. Costs here are defined as labor, material and overhead expenses.

applicable at the time of damage. This liability is only to those areas where lots or buildings have not been sold or occupied by tenants and is still under construction, or where development of lots have been completed and sold to a contractor operating independently of the developer.

E.6.3 Conditions - Speculative Development

E.6.3.1 If the development in the sole opinion of the Company is speculative, the following conditions apply in addition to those specified in paragraph E.6.2.

1. After the developer has supplied the Company with a subdivision plan, the company will prepare an estimate of costs involved in supplying distribution cable and service wires.

2. The developer will be required to post an amount (non-interest bearing) equal to the construction estimate.

3. The company will then begin work on detailed engineering and construction of facilities required by the developer.

4. Once construction has been completed and the actual cost of construction has been determined, the developer will be refunded any difference should the cost be less than the amount originally posted, or to pay the balance of the costs exceed the amount originally paid.

5. These funds will then be considered payment for construction of facilities. These facilities shall be owned and maintained by the Company.

6. As each dwelling unit is occupied and its occupant accepts service from the Company, the Company will refund the developer or his designate the pro rata share of the construction cost. The proration will be determined by dividing the total number of lots and dwelling units in the total development, by the total cost of construction.

7. From the date of completion of the Company's facilities, the Company is liable to refund construction costs for a period not to exceed ten years.

DIRECTORY LISTINGS

F.1 Regulations Applicable to Directory Listings

1. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory. Listings are intended solely for the purpose of identifying subscriber's telephone numbers and as an aid to the use of telephone service.

2. The Telephone Company will furnish to its subscribers, without charge, only such directories as it deems necessary for the efficient use of the service. Other directories will be furnished at the discretion of the Company at a reasonable charge.

3. The Telephone Company shall have the right to make a charge for subsequent directories issued in replacement of directories destroyed, deface, or mutilated while in the possession of the subscriber.

4. The listing of subscribers either without charge or at the rate specified herein for additional listings in the alphabetical section of the directory does not contemplate special prominence of arrangement. In accepting listings as requested by the subscribers of prospective subscribers the Company will not be a party to controversies between subscribers as a result of the publication of such listings in its directories.

5. Listings must conform to the Company's specifications with respect to its directories. The Company reserves the right to reject listings when in its judgement such listings would tend to delay or impede the use of the service.

6. The Company reserves the right to limit the length of any listing to one line in the directory by use of abbreviations when in its judgement the clearness of the listing and the identification of the subscriber is not impaired thereby.

7. Except as hereinafter provided only one listing is furnished without charge for each main service, joint user service, PBX system or Centrex system; where a number of main services are provided on a rotary basis they are considered as one service. If additional listings are required to properly identify the subscriber, such additional listings may be provided without charge to the extent that the number or listing allowed does not exceed the number of main station line or PBX trunks associated with that service. Listings showing the appropriate station number may be provided without charge.

indented under the main listing or additional listings at the charge for additional listings. Such listings may be specific department, location or titles of key personnel.

8. Additional listings on rotary numbers usually bear the call number of the first line of the rotary group but, at the subscriber's request, they may bear any one of the rotary numbers.

9. Street numbers, followed by the names of streets, will be used in identifying the location of the subscriber except when in the judgement of the Company names of buildings, apartment houses or communities serve as a better means of identification. Corner addresses are undesirable and will be used only where the street number is not available. The use of floor, room or suite numbers of buildings or apartment houses, or other such designation is not permitted.

10. Listings are not provided in connection with public telephone service except when the lists will facilitate the operations of the Company. No additional listings are permitted. Listings in connection with semipublic telephone service are furnished under the rates and regulations as other business service.

11. When in the judgement of the Company the use of reference or other listings in excess of the number of listings permitted without extra charge as previously outlined, are needed for better identification of the subscriber or governmental offices to facilitate the Company operations, such listings may be provided without charge.

12. Whenever any question arises to the right of a subscriber (1) to list the name of a business which he claims he is authorized to represent; or (2) to use a listing which includes the trade name of another, the company is privileged to require the subscriber to secure from the owner of such name, written authority to use it, addressed to the company for the acceptance for insertion or for the continuance of such listings; and is privileged to refuse to accept or delete such lists where (1) such written authority is not so furnished or (2) such authority is withdrawn by such owner in writing to the company

13. Primary Listings

1. One listing without charge, termed the primary listing, is provided as follows:

A. For each separate subscriber service. When two or more main station lines or PBX trunk lines are consecutively operated, the first number of the group is considered the primary listing.

B. For each semi-public service.

C. For each joint user.

D. For each service station subscriber.

14. Unlisted number service is the withholding of a customer's listing from the printed telephone directory. The number may be obtained from the directory assistance operator.

15. Non-published number service is the withholding of a customers listing from both the telephone directory and directory assistance records.

16. The length of contract period for directory listings, where the listing actually appears in the directory, is the directory period. The directory period is from the day the directory is distributed to the customer to the day the succeeding directory is distributed to the customers. Unless the listing no longer serves the customer because of disconnection, removal, etc., of the service the minimum contract period will be for 30 days.

F.2 Business Listings

Business names in the directory listings shall be limited to the following:

1. The individual name of the subscriber or joint user, or
2. The name under which the subscriber or joint user is actually doing business as evidence by signs on the premises by letterheads, and by name under which a bank account is carried, or
3. The name under which a business is actually being conducted by someone other than a subscriber and which the subscriber or joint user is authorized by such other to use or
4. The individual names of the officers, partners or employees of the subscriber, or
